MADE BY: _____

My missing instruction

Choose a job. Test a full program, then remove one card. Your partner runs it, finds the missing instruction and tests a repair.

Draw what you want the machine to make.

Our goal:

_____

1 FIRST

First instruction

2 NEXT →

Next instruction

3 LAST →

Last instruction

My partner followed every card: □
We removed one card: □

Our result matched our goal: □ Yes □ Try again
Our missing instruction: _____

Run → Look → Add the missing instruction → Test again.
Use pretend actions and paper props. Test before gluing. Decorate after your program works.

Tell a friend: “The computer cannot guess a missing instruction.” Explain what changed after you added the picture.

Find the missing instruction.

Cut out one row. Build and test your program. Hide one card under your hand. Which instruction is missing?

 **Party hat**	 Pick up hat	 Put on hat	 Wave hello
 **Apple treats**	 Wash apple	 Cut apple	 Put in bowl
 **Cupcake**	 Put cupcake	 Add icing	 Serve cupcake
 **Lantern**	 Put light	 Add cover	 Light on
 **Balloon**	 Pump air	 Tie balloon	 Hang balloon

Use pretend actions and paper props. Partners swap programmer and tester roles. Keep the actual short-program result visible before repairing. Decorate after the repaired program works.
