MADE BY: _____

My directions for Pip

Choose a party map or make your own. Mark START and draw a goal. Your partner moves a paper Pip one square per arrow.

Our goal:
Draw the friend or place Pip will visit.

1 | 2 | 3 | 4

One direction arrow = one square.
Point → Plan → Run → Look → Change → Test.
Use up to four arrow cards. Test before gluing.

We pointed to START and the goal: □ We followed every direction arrow: □ Pip reached the goal: □ Yes □ Try again
One arrow we changed: _____ We tested again: □ We swapped roles: □

Arrows point on the paper: ↑ toward the top, ↓ toward the bottom. Keep the paper facing the same way. Pip keeps facing you. Decorate after your route works.

Which directions will take Pip there?

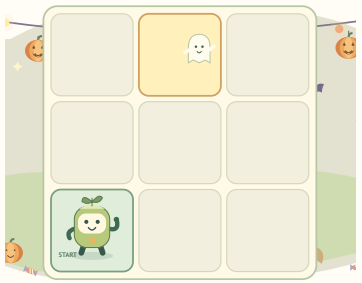

Choose a map below. Copy its green START, gold goal and any hedge squares onto your map. Cut out the arrows and a paper Pip.

Pumpkin · 2 arrows

Invitation · 2 arrows

Boo · 3 arrows

Milo · 3 arrows

Party door · 4 arrows

One partner says each direction.
The other follows it, one square at a time.
At an edge or hedge, stay in place and follow the next arrow.
