“Our plan said _____. At step _____, we saw _____. We changed _____. We ran all four steps again and checked _____.”

A bug means the instructions do something different from our chosen plan. Finding one helps us improve our program!

Opening-night instruction cards

Cut on dotted lines. Reuse cards when testing and repairing. Enough cards for any one supplied challenge per pair.
For your own plans, draw more copies if needed. Keep the original program by drawing it before moving cards.

Partner test

A · Program maker

Show your plan and program. Predict. Watch without giving extra instructions.

B · Program tester

Follow every picture, one at a time. Record what happened. Compare with the plan.

Together

Find a difference. Make a little change. Test all four steps again. Swap roles.

Decoration comes after the test. Take your plan, first program, repaired program and evidence home.
